

Music Library

2° Sprint — Release

SE Project

Valentina Carmen Schirò

La release

L'applicazione

Sprint Backlog e Sprint Goal

Sprint 2 — Completato

Sprint Goal: Riproduzione & Persistenza

User Story completate

US-Persistence — Persistenza dei dati su file (JSON)

US-H1.8 — Riproduzione di un brano

US-H1.9 — Riproduzione dell'intera playlist (avanzamento automatico)

US-H1.7 — Rimozione di un brano da una playlist (anche in riproduzione)

13

Story Point completati

HIGH

US-H1.7 : Removing a track from a playlist

16/16

2

HIGH

US-H1.9: Play an entire playlist

16/16

3

HIGH

US-H1.8 : Playing a single track

16/16

5

HIGH

US-PERSISTENCE : Persistence of library data

15/15

3

Next Sprint

Next Sprint — punto di partenza

Capacità

Velocità di riferimento ~13 SP

Sprint 1 = 11 · Sprint 2 = 13

Stato dei Design Pattern

Facade — implementato

Adapter — implementato

Command — predisposto, Undo non ancora collegato

Opzione A — Completezza funzionale

Goal: un music player completo

User Story	Priorità	SP
US-H1.10 — Pausa / ripresa	P1	2
US-H1.11 — Skip avanti / indietro	P1	2
US-H2.1 — Modalità sequenziale	P1	2
US-H2.3 — Modalità loop	P1	2
US-H1.12 — Elimina playlist (nuova)	P1	2
US-H1.13 — Durata in min:sec (nuova)	P2	2
US-M1.2 — Brani più ascoltati	P2	1
Totale		13

Opzione B — Vetrina del design

Goal: Undo + controlli di base

User Story	Priorità	SP
US-H1.10 — Pausa / ripresa	P1	2
US-H1.11 — Skip avanti / indietro	P1	2
US-H2.1 — Modalità sequenziale	P1	2
US-H1.12 — Elimina playlist (nuova)	P1	2
US-M1.1 — Undo (attiva il Command)	P2	5
Totale		13

Le due strade a confronto

Opzione A — Completezza

- Prodotto completo: tutte le modalità di riproduzione
- Quasi tutto P1, rispetta la priorità
- Nessun nuovo pattern (resta Facade + Adapter)

Opzione B — Design

- Command
- Salta il loop; M1.1 (P2) anticipata su una P1

Sprint 2

Sprint Review

Sprint Review

Modifica del Product Backlog

Aggiunte US-H1.12 (elimina playlist) e US-H1.13 (durata min:sec). Ri-stima degli SP grazie all'infrastruttura già pronta.

US-H1.13	Deleting a playlist	Come utente, vorrei eliminare un'intera playlist, in modo da rimuovere le raccolte che non mi servono più	1	2
US-H1.12	Enter the duration in minutes and seconds	Come utente, vorrei inserire la durata del brano in minuti e secondi separati, in modo da non dover convertire manualmente il tempo in secondi totali	1	2

Story point: pianificati vs completati

Pianificati 13 · Completati 13.

HIGH

US-H1.7 : Removing a track from a playlist

☑ 16/16 P 2

HIGH

US-H1.9: Play an entire playlist

☑ 16/16 P 3

HIGH

US-H1.8 : Playing a single track

☑ 16/16 P 5

HIGH

US-PERSISTENCE : Persistence of library data

☑ 15/15 P 3

Sprint Retrospective

Sprint Retrospective

-  **More of** — più attività di progettazione (design pattern, UML)
-  **Start doing** — pianificazione dettagliata e organizzazione del tempo
-  **Keep doing** — migliorare i task
-  **Less of** — tempo speso in attività non essenziali
-  **Stop doing** —

Grazie!

Valentina Carmen Schirò
